How to Choose the Right Wipers

01

Know Your Vehicle

Check your car's manual or measure existing wipers to find the correct size for your windscreen.

02

Consider Weather Conditions

Choose wipers designed for your climate. Durable rubber and aerodynamic frames work best for heavy rain and dust.

03

Look for Quality Materials

Invest in wipers made with natural rubber or silicone for streak-free cleaning and extended durability.

04

Check Installation Ease

Ensure wipers are compatible with your vehicle's arms. Most modern wipers offer tool-free installation.
